

Good morning, we came across this post this morning and thought you might be interested/ concerned to know that we may have this in our municipality as well. Specifically, adjacent to the 2 mile road west of hwy 2, just north of the road that Terry Busche lives on. Sounds like there's quite alot of it.

June took this on the way
for water the other day at
the area mentioned in the
prior message.

I have it too I see.

Looking it up, we might have water parsnip. It's not so bad from what I have read.
