

February 3, 2026

Dear Reeve & Council,

Too far away. Too far to reach. Too far gone. That's what people used to hear.

STARS has served Saskatchewan since 2012. From our bases in Saskatoon and Regina, our teams launch an average of three missions every day and over 11,000 lives reached and counting.

Built by the community, for the community, as a charitable, not-for-profit organization, STARS responds where the need is greatest. To do that, we must raise \$12.4 million every year. Community support keeps our aircraft in the air and our teams ready when seconds matter most. We've never wavered from our mission. Where you live, work, play, or travel—should never decide your chance of survival.

Critical care never stands still—and neither do we. At STARS, we lead the way in medicine, technology, research, and education, pushing the limits of what's possible to save lives today and into the future. We can't do it alone. Allies like you make every mission possible.

Today, we invite you to include STARS in your yearly budget through a voluntary \$2 levy or a direct donation. We're also happy to help with pledge reminders to make giving easy & we can set up a meeting to discuss this process. When you support STARS, you're not just making a donation - you're making an investment. You're flying with us—on every mission, for every patient, for every life.

Here is a powerful video about STARS & these past 40 years - [40 years, one mission: It's all about the patient](#)

We will be at SARM Convention March 10-12, 2026 so please come by the booth!

If you have any questions about the pledge reminders or are looking for a STARS presentation to your council, please feel free to contact me at 306-659-1507 any time.

Sincerely,

A handwritten signature in blue ink that reads 'Shari'.

STARS
