Subject: 2026 Proposed Road Construction Plans

January 15, 2026

RM of Big Arm No. 251
Box 120
Imperial, SK S0G 2J0

Dear RM Administrator,

Subject: 2026 Proposed Road Construction Plans

To support SaskPower's upcoming construction plans for 2026, we are reaching out to Rural Municipalities (RMs) to request information regarding any proposed road construction plans that may be under consideration within your RM in 2026.

Collaboration with RMs is essential to ensure the safety of all stakeholders and to minimize any potential service disruptions to our customers. Early involvement in these projects also allows SaskPower to proactively work with RMs on any concerns that may arise.

Accordingly, I kindly request your co-operation in providing me with information on any proposed road construction plans you may have within your RM, including a detailed map.

Please forward this information to me by email to: obmsaskatoon@saskpower.com as soon as possible.

Note: For all other services requests, please visit www.saskpower.com (Electrical Service Requests), call 1-888-757-6937 or email newservices@saskpower.com. In some circumstances SaskPower district boundaries may overlap within your RM boundary causing you to receive more than one of these proposed road constructions plans letters. If this occurs, please gather the requested information for each of the letters and forward to each specified email address.

If you have any questions or concerns, please feel free contact me. Your prompt reply on this matter is greatly appreciated.

Sincerely,

Justin Bloor
